

Private Registration Terms of Service

Private registration services are provided to all Domain Cost Club (DCC) Members free of charge. If Club Membership lapses privacy services will be removed.

Abuse and trademark infringement reports may be submitted to abuse@domaincostclub.com. All reports are reviewed by DCC and registrar staff. When required by contract or law, privacy services may be removed.

Postal mail, faxes, and email sent to listed private registration addresses will be received by DCC staff. It will be forwarded on when required by contract or law.

While private registration services are active in the Whois database, Registrant contact information may still be supplied to registries and ICANN as contractually required. For example, all domain registrant data is regularly escrowed by all registrars under contract with ICANN. Underlying registrant data is escrowed, not private registration services information. This does not affect the information displayed in Whois.

Private registration services are provided by DomainCostClub.com.

You can learn more about Whois services at <http://whois.icann.org/en/primer>.
